

Ontario Recycler Workshop

December 4, 2009

Discussion Topics

1. Best Practices

- What do you see as your priority areas for implementing better & best practices?
- Are there other BP in recycling collection that should be researched or proven?
- What benefits to your program do you expect to achieve by implementing best practices?

2. MRF Issues

- In light of the uncertainty created by the EPR discussion how can CIF assist with MRF/processing infrastructure development?
- Should CIF place more of an emphasis on:
 - identifying new technologies to improve MRF operations
 - optimizing existing technologies (i.e., more analysis & reporting back on things like optical sorters)
 - developing markets for problem materials

3. Open Spaces Collection Initiatives

- Are you planning to implement or expand open space recycling in your program?
- What do you consider better or best practice in open space recycling?

4. Multi-Residential Recycling: Supporting Best Practices

- Are you planning improvements to your multi-residential recycling program?
- Consider how the CIF Multi-res Policy & Guidelines could assist you to implement best practices
