

CIF Project #389 - REOI Submission Review: Killaloe, Hagarty & Richards (KHR)

Background

In 2011, the CIF hired Earth's Edge (now Redi Recycling) to review an REOI submission for the Township of Killaloe, Hagarty & Richards (KHR) involving a proposal to implement a public space Blue Box recycling program. The work included reviewing the application with KHR, performing a site visit, completing CIF documentation and recommending next steps for the REOI request.

Summary of Results

The work was completed and recommendations were given to the CIF. KHR went on to complete "CIF Project #638.13: Public Space Recycling", which included placement of several Blue Box recycling containers in public spaces with appropriate signage.

Financials

The final cost of the project was \$1,234.

Learnings

This work highlighted the fact that many municipalities were willing to make changes but lacked the internal resources to identify and implement better practices. The involvement of the CIF through the use of a consultant as a liaison led to a successful application with a better design and greater operational efficiencies than would have otherwise have been achieved.
